For Immediate Release

Magnum Systems Staff Considered Experts with Published Article on Robotics

Magnum Systems is pleased to announce the release of the November issue of *Powder and Bulk Engineering* which features an article on written by two Magnum Systems employees.

The article titled, "How a robotic arm can improve your packaging operation" gives readers of the magazine insight on the reasons for utilizing robotics in their packaging systems as well as provide some basics on robotics.

Powder and Bulk Engineering is the only monthly technical publication edited exclusively for readers in the North American powder and bulk solids market.

Magnum Systems is committed to offering our customers with innovative and problem solving solutions. Our enormous equipment breath, years of experience, and drive for excellence allows us to offer combined process solutions that no other company can.
