TRV1000 Honored

For Immediate Release

Taylor Products TRV1000 Honored With Powder Bulk Solids Innovation Award

Taylor Products, division of Magnum Systems, is pleased to announce that the TRV1000 was awarded 2005 Powder Bulk Solids Innovation Award in the Packaging/Storage category.

The TRV1000 is the latest in innovation from Taylor Products. The placer offers the latest in robotic technology through Taylor Product's unique relationship with FANUC Robotics. The placer is capable of placing bags on multiple machines, being mounted in multiple positions, and customizable to your specific application.

For nearly 25 years, POWDER/BULK SOLIDS has been the voice of the dry processing industry, providing more total information on new technology, products, equipment, systems, and services than any other source.

Taylor Products, division of Magnum Systems, is a leader in material handling, weighing, filling, and packaging equipment. For over 35 years Taylor Products has provided customers with versatile, cost effective, packaging equipment, and continues this trend today. For more information about Taylor Products, go to Taylor Products website at www.taylorproducts.com or call 1-888-882-9567.
